To whom it may concern,

My daughter, Jillian, went to treatment at Steppingstone in January 2013.

When she completed the program she returned home to Texas but was very unhappy. She wanted to go to a sober living house in Jacksonville, Florida. I spoke to Jim Kerr by phone and made arrangements. He met my daughter at the airport with her luggage and got her settled into his sober living house.

While in sober living, she was involved in AA meetings, sober activities, morning meditations, and many activities that were beneficial to her. She thought she was ready to leave the sober living house and I flew out to help her get settled in an apartment. We found a couch on craigslist and Jim got some of the guys from the house to help us. I was so impressed with the work that he does on a personal level with the residents. I saw him at AA meetings when I would go with Jill and I enjoyed meals with Jim and others from Jax Sober Living.

When Jillian relapsed, I didn't know what to do but Jim's patient advice helped us get her back into treatment at Lakeview. Jim has been so helpful to our family over this last year. I would not hesitate to recommend Jax Sober Living.

Please call if you need more information.
