

Hi Derek,

My name is Lynn Patterson. My daughter is Rachel Patterson. She has been a patient at Lake View a few times. First let me start by saying Lake View is by far the best facility that Rachel has gone to. She did relapse but is doing very well now. I don't think her state of mind has been so focused on staying clean before. I will forever be thankful to all the wonderful staff there.

After leaving Lake View she went to Jax Sober Living where she continued to work the program. Jim runs a great program and holds them accountable. She did think she was ready to move to another house and that ended up being a disaster. Jim saw her at a few meetings and suspected she was using again, and contacted me even though she wasn't living there. We immediately contacted Lake View and got her back into the program. She is back at JSL and doing really well. She's happy and healthy thanks to Lake View and the program that Jim runs. I would recommend his house to anyone serious about staying sober. I have referred Lake View to several people as well.

Thanks to the combined effort of your staff and Jim I have my daughter back.

God Bless,

Lynn Patterson
